

BRANOsience

Analytics

Analytics

Know-how of experienced staff combined with state of the art technology

■ Product characteristics

The BRANOsience analytics sector offers services of competent and specialized staff combined with a premium equipped laboratory.

A qualified team of chemists (PhD), materials and film experts plus trained laboratory assistants are working on your problem. We can draw upon many years of experience regarding customer requests.

We practice causal research and are able to make an appointment on site to clarify your request. We also do welcome you in our rooms in Lich, of course.

After the handling occurred, you will get a detailed report with test results and solution models regarding your request.

■ Advantages

- Competent und specialized staff
- Premium equipped laboratory
- Modern technology
- storage/ transport simulations
- Causal research
- Verification of the process chain
- DIN EN/ISO 9001
- DIN EN/ISO 14001

If you have any questions regarding analytics, please contact our R'n'D experts!

Branopac
Solutions with System

■ **Our key to success:**

longtime experiences and state in the art technology

Gas chromatography with coupled mass spectrometer

Infrared spectrometer

X-ray fluorescence-spectrometer

Programmable conditioning cabinets

Laboratory extruder

UV-VIS-photometer

Melt-Flow-Index-instrument

Redox- and conductivity instrument

Surface resistance meter

Moisture meter

■ **Our services - our know-how**

Specific tests of paper and films

Corrosion tests in a climate chamber (DIN EN ISO 6270-2)

Transport simulations (e.g. international sea transport)

Surface analytics (e.g. contamination of component parts, identification of polymers)

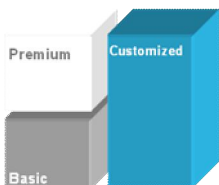

Washing bath analytics (e.g. chloride contamination, pH-value)

Causal research

Verification of the process chain

Product-specific physical and chemical tests

Determination of the corrosion protection effect of VCI-papers and VCI-films [according to TL 8135-0002 und 8135-0043]

Depending on your request of the product specific tests you have the choice between BRANOpac Basic-, Premium- or Customized solutions.
