BRANOliner M 160 TT

Tear-proof baking paper

BRANOfood

Separation and shaped papers for the food industry

Characteristics

Single-sided tear proof baking paper based on unbleached composite kraft liner, approx. 176 g/m², not greaseproof.

With **standard siliconisation to achieve release effect properties to meet medium requirements.**

BRANO standard printing on the reverse side or customised printing.

Application

A tear-proof baking paper for a large number of **cakes and biscuits** requiring standard release properties (not for savoury lye snacks).

Its **small thickness** and the use of unbleached raw material ensure **excellent heat transmission, short baking times** and crisp bottom sides.

The ideal solution for processing pizza baking plates.

BRANOliner of all kinds and shapes can be used for preparation or steaming purposes during the processing of all kinds of pizzas, cakes and dough products. The baking product can be refrigerated, frozen, baked and sold together with BRANOliner.

Baking products will be easy to remove and none of the release coating will stick to the product! Since there is no need to use other shapes or trays, working with this product is clean and efficient.

Suitable for temperatures of up to 220°C. BRANOliner is a multifunctional product.

Advantages

- Environmentally friendly material
- Excellent release effects
- Excellent heat transmission
- Short baking times
- For crispy baking
- Ideally suited for processing baking plates
- ISEGA certified
- Clean and efficient working
- Complies with current recommendation XXXVI / 2 of the Federal Institute for Risk Assessment (BfR).
- Represents no health hazards
