

# BRANOboard

Baking cardboard

## BRANOfood

Separation and shaped papers for the food industry

## Characteristics

**Single-sided baking cardboard** based on bleached cellulose cardboard and bleached baking paper, 290 or 390 g/m<sup>2</sup>, greaseproof.

With **standard siliconisation to achieve average release effect properties.**

Blank paper. Customized printing possible.

## Application

A firm baking cardboard for a great range of cakes and biscuits requiring standard release properties (not for savoury lye snacks).

Ideally suited for making a wide variety of baking shapes and trays.

BRANOLiner of all kinds and shapes can be used for preparation or steaming purposes during the processing of all kinds of pizzas, cakes and dough products. The baking product can be refrigerated, frozen, baked and sold together with BRANOboard.

Baking products are easy to remove and none of the release coating sticks to the product! Because there is no need to use other shapes or trays, working with this product is clean and efficient.

Suitable for temperatures of up to 220°C. BRANOboard is a multifunctional product.

## Advantages

- Environmentally friendly material
- Excellent release effects
- Ideally suited for making shapes and trays.
- Clean and efficient processing of food
