

BRANOperl Basic

Adhesive paper

■ BRANOTech

Special papers for technical applications

■ Characteristics

BRANOperl Basic is a bleached adhesive paper coated on both sides with good heat-proof characteristics. The good release characteristics prevent strips or sheets of material from sticking together or to other materials
BRANOperl Basic is available in weights 41 g/m² with grease-proof paper base.
Other weights on request.

■ Application

Furniture industry:

As a layer between laminated sheets before, during and after pressing; as dividers and to provide protection against scratching.

Print industry:

As transfer paper in silk screen printing and tampon processes.

Medical supplies:

As an intermediate layer between self-adhesive bonding material.

Office supplies:

Release paper for household foil, labels and stickers.

Photo industrie:

As an intermediate layer between self-adhesive photographic material.

■ Advantages

- Environmentally friendly material
- Wide range of applications
- Simple disposal
- Represents no health hazard
- Good heat-proof characteristics
- Good release effect
- BRANOpac is certified according to ISO 9001 and ISO 14001
